Cable O.D. 1/2" to 2" (12.7 - 50.8 mm)

The 1700SS Series Semi-Con Scorers have adjustable blade depth with a locking set screw for scoring (scribing) the semi-conductive shield of high-voltage cable so the semi-con can be removed without nicking or damaging the cable insulation.

Features

- Adjustable blade depth (.001" - .100")
- Square, and spiral cut
- Scores (scribes) semi-con without damage to insulation
- Leaf springs maintain constant pressure during operation
