Mobra Chamber Frame JUF/10 is a robust and adjustable frame designed for use within cable chambers to support joints and termination boxes.

Suitable for standard joint box and cable chamber installations, this frame adjusts between 660mm and 850mm, offering a versatile solution for larger-scale applications.

Engineers install the JUF/10 frame in conjunction with Mobra arms and a no-drill chamber bracket, enabling a secure and tool-free setup. Manufactured by Barton International in corrosion-resistant galvanised steel, the frame ensures long-term durability and structural reliability even in challenging underground environments.

BC BARTON INTERNATIONAL - MANUFACTURING CAPABILITIES

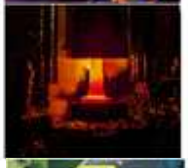

CNC Metal Stamping

Metal Folding

CNC Milling

Screws and Fasteners

Hot Forging

Drop Forging

Steel Formwork

Aluminium Extrusion

CNC Metal Punching

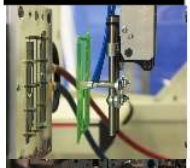

Metal Laser Cutting

Metal Welding & Assembly

Aluminium Formwork

Expendable Mold Casting

Permanent Mold Casting

Plastic Injection Moulding

Rubber Moulding

PROVIDING THE COMPLETE METALWORK SOLUTION

Supplying medium to high volume precision manufactured products. Utilising a diverse range of metal manufacturing capabilities. Available in a wide range of high-performance aluminum, stainless steel, copper, bronze, nickel, and mild steel materials.
