10pcs

ISO9001Accredited

Mobra Chamber Mounting Arm Long is a telescopic pivot arm designed for use with Mobra chamber brackets JUF/4-6 (Medium) and JUF/10 (Large).

It provides a secure and flexible mounting solution for housing and protecting fibre connections within underground chambers or aerial networks.

With a standing height of 650mm and a closed length of 820mm, this long arm offers added reach and easy access for engineers during installation and maintenance. The adjustable design allows the arm to be aligned to suit the installer's fixing requirements, supporting efficient and versatile cable management in the field
