MOQ

200pcs

ISO9001Accredited

The Triangular Fixing Bracket 22 is a robust, galvanised steel bracket designed for securely fixing drop wire clamps. Featuring a three-hole design and a welded loop, this bracket provides a stable mounting point for overhead telecom and electrical cables.

Maintenance engineers install the bracket at an end-user building or along a multi-pole route where no pole ring is available. It ensures a reliable connection point, preventing strain on cables and maintaining a secure, long-lasting installation.

BC BARTON INTERNATIONAL - MANUFACTURING CAPABILITIES

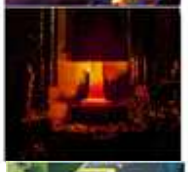

CNC Metal Stamping

Metal Folding

CNC Milling

Screws and Fasteners

Hot Forging

Drop Forging

Steel Formwork

Aluminium Extrusion

CNC Metal Punching

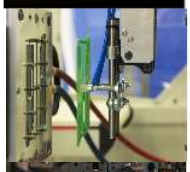

Metal Laser Cutting

Metal Welding & Assembly

Aluminium Formwork

Expendable Mold Casting

Permanent Mold Casting

Plastic Injection Moulding

Rubber Moulding

PROVIDING THE COMPLETE METALWORK SOLUTION

Supplying medium to high volume precision manufactured products. Utilising a diverse range of metal manufacturing capabilities. Available in a wide range of high-performance aluminum, stainless steel, copper, bronze, nickel, and mild steel materials.
